

Every Contribution Counts – Yours and Ours!

When it comes to contributions to your Retirement Plan, what are you allowed to do, and what can you expect from us? Here's the bottom line.

Employee contributions

You can contribute all of your eligible pay or a fractional percentage—it's your call. Whatever you contribute, that money is directed to the AHRP 403(b) tax-advantaged plan.

Matching contributions

If you meet the Plan eligibility requirements, and you make contributions yourself to the Plan, you will receive matching contributions annually. Think of it as "free money" for you! These matching contributions are directed to the AHRP 401(a) savings plan.

Basic contributions

If you meet the Plan eligibility requirements, you will receive basic contributions annually *regardless of whether you are making your own contributions to the Plan*. As with matching contributions, these basic contributions are directed to the AHRP 401(a) plan.
